RECOMMENDATION LETTER FOR OLANIYAN OLAMIDE CHRISTOPHER

I'm pleased to recommend OLANIYAN OLAMIDE, who I've known and mentored for more than five years and counting. We spent a lot of time together while he was on study for a higher diploma at the Federal Polytechnic in Ilaro, Ogun State, Nigeria, and graduated as one of the top graduates in his graduating class with an upper credit.

Olamide has led multiple groups on field survey tasks that I have overseen, and it is clear that he possesses a leadership quality. Given his intelligence and capacity for adaptation, I am confident that he will excel in any graduate program of his choice.

Olamide is also diligent, responsible, and studious. I've seen for myself how quickly he picks up on fundamental ideas. He is a strong member of any team he finds himself in and has sound analytical reasoning. He is also quite lovely to be around and I find him to be honest, intelligent, and emotionally stable. Without a doubt, Olamide possesses the special combination of tutoring his mates and research talents needed for a prosperous academic career. I believe his research skills were admirable and inspiring.

The Federal Polytechnic Ilaro solely offers lecture instructions in English-language. Olamide has great English writing and speaking skills. He is capable of succeeding in any program of his choice. In the hopes that you will find him useful in your graduate program, I thus heartily suggest him to your renowned school and for any funded position that may become available in the department.

Alausa O.A
